

ERREPLUS®

# Spider Girth

DRESSAGE

- A uniquely shaped girth made with 4 independent stainless-steel buckles and elastic on both sides. By keeping the billets position parallel this girth reduces the pressure on the horse's sternum and ensures greater saddle stability due to spaced buckles.
- Central "D" ring suitable for attaching straps if needed.

**Features:**

**Horse conformation:**

Attention! Suitable only for horses with a normal/flat belly

**Colours:**

**Materials:**

Bull leather on the outer side and sweat-resistant leather on the inner side

**Sizes:** 50/55/60/65/70/75/80 cm

Please note that the measure of the girth is taken from buckle end to buckle end

**Care and Maintenance:**

Use our *Leather Cleaner* with pH inverter to maintain the skin's acidity when in contact with the horse. Never store the girth wet with sweat in contact with the saddle seat to avoid dryness and cracking of the seat and flap.
