

ERREPLUS®

Anatomic Round Girth

DRESSAGE

Stainless steel buckles

D - ring

Velcro

- Wide central shape with 4 stainless steel buckles, elastic on both sides, and velcro closures for securing the girth.
- Central "D" ring for additional attachments, increasing contact surface on the sternum of sensitive horses.

Features:

Horse conformation:

Suitable for horses with a normal conformation, positioned 6/7 cm from the elbow.

Colours:

Materials:

Bull leather on the outer side and sweat-resistant leather on the inner side

Sizes: 55/60/65/70/75 cm

Please note that the measure of the girth is taken from buckle end to buckle end

Care and Maintenance:

Use our *Leather Cleaner* with pH inverter to maintain the skin's acidity when in contact with the horse. Never store the girth wet with sweat in contact with the saddle seat to avoid dryness and cracking of the seat and flap.
