

ERREPLUS®

Narrow belly girth
JUMPING

Characterised by a wider central area that evenly reduces pressure on the sternum. Features 4 stainless steel buckles and 3-layered elastic for greater strength, durability, and saddle stability.

Central "D" ring suitable for attaching snaps. 2 side "D" rings for attaching draw returns or special gears. Large central carabiner hook for attaching the martingale, ideal for the jumping discipline.

Features:

Horse conformation:

Standard conformation, ideal for most horse anatomies. Keeping the buckles 6/7 cm from the elbow.

Colours:

Materials:

Bull leather on the outer side and sweat-resistant leather on the inner side

Sizes: 120/125/130/135/140/145 cm

Please note that the measure of the girth is taken from buckle end to buckle end

Care and Maintenance:

Use our *Leather Cleaner* with pH inverter to maintain the skin's acidity when in contact with the horse. Never store the girth wet with sweat in contact with the saddle seat to avoid dryness and cracking of the seat and flap.
